

FR10 - FR10X

air filter regulators (miniaturized)

The air filter regulator FR10 is specially designed for feed, with clean air and controlled pressure, all the measuring and control instrumentation, automatic machines and any type of pneumatic device. The high precision of control and its constructive characteristics make it particularly reliable even in environmental heavy conditions.

- ◆ Full INOX version (FR10X)
- ◆ Partivulary compact design
- ◆ Low consumption
- ◆ Fine regulation
